It matters little whether it is a cold or warm day in the trade of making trusts. Every day seems favorable to that particular form of

Some days one trust is formed per day, while at other times they are t med out at a more rapid rate.

The most recent member of the trust brood in point of importance has been hatched out at Pittsburg, one of the most prolific incubators of this class of industrial vultures. A dispatch from that highly protected city announces that an organiza tion has been effected among the wire and nail manufacturers. This combination, it is stated, will raise prices It has arranged to advance the price of wire nails 5 cents per keg and to make a corresponding elevation in the price of wire

One of the articles of manufacture selected for a particularly steep increase in price by the trust is patadvanced to 65 cents above the basic rate charged on wire nails. It should be noted that the direct tax imposed upon the multitude of consumers this arbitrary advance will amount to many millions of dollars and that it will fall principally on the farmers. It should be noted further that this advance in prices has not been inaugurated for the purpose of covering losses in the nail and barbed wire trade or for the purpose of paying higher wages to the men engaged in the labor of making these articles.

With crop shortages everywhere, why isn't the wheat market on the jump? If you have information to impart, Mr. Secretary, don't tell us what the is 80 cents a bushel. There are ten regiments here besides the engineer corps and the signal corps, also a recruiting office for regulars; they will not let any of the 2nd Mo boys enlist, they say we

have a job for two years. This is a nicer camp than we had in Ga., the people treat us better, we are getting better rations and more of them, there is not so much sickness. There are plenty of measles-red and black; we have three or four in the hospital with them. Capt Johnson is still in the hespital; he is not much improved. We will get paid this week. The boys think many of them will get home on ten days furloughs. Some of the boys are trying to get discharges, but only one, Bain, of Rich Hill, has succeeded. There is a regiment from Oklahoma, Indian Ty., Mexico and Arizona here; a number of them are Indians. They have a pet bear and an eagle for maseots. The 2nd Mo has a billy goat, a pet coon and about forty dogs for mascots. We have lost seven out of our company-4 deserted, 2 deaths and one discharged.

There were two officers and four privates killed and eleven wounded-A number of civilians were also wounded.

The following is General Bacon's latest dispatch:

Regret exaggerated rumors pubished resulting from my inability to communicate. Have been in no danger of massacre and need no reinforcements. Colonel Harbach's coming was in good time in sending out boats. BACON.
